1. I don't like this type of a schedule because I believe it does NOT accurately reflect contributions + presentations of DTR Instructors.

2. As it stands, the schedule indicates that neither of you is making a formal presentation. I don't believe this is true on the basis of our presentations.

3. In the future, please indicate the identity of each individual responsible for each period.

4. I'd still like to know what contributions (lectures) each of you are making in this course. Thanks.
